

## **MEDEUROPA STRENGTHENS ITS PRESENCE IN FRANCE WITH THE AGREEMENT OF A PARTNERSHIP WITH THE ANDRÉE DUTREIX INSTITUTE IN DUNKIRK, FRANCE**

04.02.2021 – MedEuropa, a European company dedicated to the treatment of cancer, has finalised a partnership with the Andrée Dutreix Institute (the “Institute”) in Dunkirk, one of the main integrated private cancer centres on the North Coast (Littoral Nord) and Maritime Flanders. This transaction is MedEuropa’s second investment in France in just a year.

The Institute provides high-quality radiotherapy treatments to over 850 patients per year in the Pas-de-Calais and Nord departments. In addition, it offers oncology consultations and chemotherapy treatments in the region. Since taking over the Institute in 2013, the four current shareholding doctors have significantly improved the quality of care for patients through continuous investment in modern radiotherapy equipment.

Through its unique model of association, MedEuropa is pleased to partner with the four independent practitioners of the Institute – who reinvest alongside MedEuropa and remain as shareholders – to ensure continuity of high-quality treatments for patients over the long-term.

This partnership with the Institute strengthens MedEuropa’s presence in France following the investment in the Centre Catalan d’Oncologie (“CCO”) in January 2020. CCO is one of the largest private radiotherapy centres in the South West of France, treating nearly 2,000 new radiotherapy patients per year.

MedEuropa, owned by Telemos Capital, has the ambition to become the independent European leader in radiotherapy and is therefore continuously looking for new partnerships with leading medical teams, in particular in France and Germany.

### **About the Andrée Dutreix Institute**

The Andrée Dutreix Institute (the “Institute”) is located in Dunkirk and provides radiotherapy treatments to over 850 patients per year in the Pas-de-Calais and Nord departments. The Institute is led by four independent practitioners, who operate two accelerators of the latest generation and benefit from a robust referral network, supported by an established presence at multidisciplinary consultation meetings in the local region. The Institute is one of the main integrated private cancer centres on the North Coast (Littoral Nord) and Maritime Flanders.
