

**STINGRAY HEALTHCARE CONTINUES ITS DEVELOPMENT IN GERMANY:  
NEW PARTNERSHIP IN BERGISCH GLADBACH**

**02.01.2025** – Stingray Healthcare (“Stingray”), a unique alliance of medical professionals, healthcare managers and entrepreneurs dedicated to advancing cancer care in Europe, is pleased to announce a new partnership with the shareholding doctors of PSBG, Praxis für Strahlentherapie Bergisch Gladbach.

Founded in 2005, PSBG is a state-of-the-art radiotherapy centre located in the Cologne area, operating across two strategic sites. Renowned for delivering advanced treatments for both malignant and benign conditions, PSBG has earned its reputation as a centre of excellence in the Rheinisch-Bergischer Kreis

Jürgen Metz, PSBG’s founding physician, stated: *“Partnering with Stingray will allow us to continue to benefit from the growth while providing cutting-edge patient care and having continued access to the latest technology.”*

Ralph Hefti, CEO of Stingray, added, *“We are thrilled to collaborate with a medical team renowned for its quality and commitment to patients in the Rheinisch-Bergischer Kreis and beyond. This partnership further solidifies our commitment to enhancing cancer care across Europe.”*

Through this majority stake acquisition, Stingray strengthens its footprint in Germany, where it has been active for over five years. With seven sites in Germany and three in France, Stingray continues to build its position as a leading European operator in cancer care.

Looking ahead, Stingray remains focused on both organic growth and strategic partnerships to expand its impact in its core markets.

## **About Bergisch Gladbach**

Praxis für Strahlentherapie Bergisch Gladbach has been operational since 2005 and offers advanced therapeutic options for both malignant and benign diseases. The centre emphasizes modern and innovative treatment techniques and collaborates closely with various healthcare professionals, organ centers and tumor centers to provide high-quality, patient-centered care.

Located strategically in the Rhine-Berg district near Cologne, the center supports patients from a wide regional area including Cologne, Leverkusen, and the Oberberg district. It operates from two locations: one at the Evangelical Hospital in Bergisch Gladbach and another at the Vinzenz-Pallotti Hospital in Bensberg. Both sites are equipped with state-of-the-art technology to ensure patient comfort.
